Portfolio: rueeazy.github.io/christianruiz | Github: github.com/rueeazy

Education

The Odin Project - Full Stack Ruby on Rails   March 2020 - October 2020
• **Courses:** Ruby, Javascript, HTML & CSS, Ruby on Rails, React, Databases, Data Structures

Skills

Languages: Javascript, Ruby, HTML, CSS/SASS, SQL
Tools & Platforms: Git, Heroku, Webpack
Libraries & Frameworks: React, Ruby on Rails, Bootstrap

Projects

Odinbook | github.com/rueeazy/odinbook
• Created a social media website utilizing MVC design patterns on Ruby on Rails and Bootstrap.
• Implemented a relational database to create associations between users, posts, likes, and comments.
• Integrated Devise for authentication, added sign-in with Facebook using Facebook API and Omniauth.

Chess | github.com/rueeazy/chess
• Utilized object-oriented programming to create, modularize, and instantiate classes with Ruby.
• Implemented data structures and search algorithms to traverse chessboard for validating moves.
• Integrated YAML serialization to save/load games.

Where's Waldo | github.com/rueeazy/where-is-waldo
• Built a photo tagging application by integrating React frontend and Ruby on Rails backend.
• Implemented a database to import and store JSON character data for validation.
• Built REST API for verifying photo coordinates and posting player scores.

Weather App | github.com/rueeazy/weather-app
• Created a web application using React, HTML, and CSS to display weather data from Open Weather API.
• Parsed incoming JSON data using async functions.

Employment

Amazon   New York, NY
Independent FBA Seller   Feb 2018 – March 2020
• Analyzed sales metrics to create high converting product listings using Amazon Seller Central Platform.
• Lowered recurring freight costs by 20% coordinating shipments using U.S. based freight forwarders.

Wells Fargo   Aptos, CA
Personal Banker   December 2016 – February 2018
• Provided financial counseling, assisted with lending services, and built client relationships.
• Worked with management to train tellers, maintain 98% satisfaction score, and increase sales production.
